ACADEMY OF DENTISTRY TORONTO

OUR ACADEMY

The ACADEMY OF DENTISTRY, formerly the Toronto Dental Society, has been

functioning continuously since 1889. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the specific services provided are as follows:

1. The Annual WINTER CLINIC.
2. After hours EMERGENCY TREATMENT service for the public.
3. The Annual INFORMATION BOOK, a directory of dental organizations.
4. The LADIES' AUXILIARY, which provides support for worthy dental projects, and various fellowship activities.
5. PUBLIC RELATIONS, a secretary to answer the public's queries and complaints.
6. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
7. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
8. DENTAL MEETINGS with excellent programs and clinicians.
9. Assistance in formation of new STUDY GROUPS.
10. HONOURARY MEMBERSHIP to recognize outstanding dentists.
11. ARCHIVES for historical dental information.
12. Fellowship activities such as the Annual GOLF TOURNAMENT and CURLING BONSPIEL.
13. MEDIATION services for the public.
14. COMMUNICATION with dental auxiliary organizations.
15. LIAISON with local government and other community groups.
16. Provides an ASSOCIATE PLACEMENT service.

THIS IS OUR ACADEMY.

KEEP IT STRONG.

SUPPORT IT, ENJOY IT.

PRESIDENT'S MESSAGE

DONALD A. STEWART, D.D.S.

This is a significant year in two respects for dentistry in Metropolitan Toronto. It marks the fiftieth anniversary of the Academy of Dentistry Toronto's Winter Clinic as well as the twenty-fifth anniversary of the fluoridation of Toronto's water supply.

These two events partly represent the fundamental unselfish interest that our profession has for the people of Ontario. Collectively the excellent state of dental health in our province is second to none. When recollecting the integrity of our members, in spite of the government's partly held belief to the contrary, it is issues such as the advocacy of fluoridation and the self imposed acquisition of knowledge that describe our true intentions.

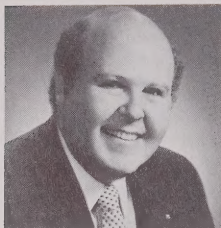

It is crucially important not to relinquish our responsibility for all related aspects of our patients' dental needs. We are faced with a determined attempt at the usurpation of our responsibilities from many directions; government, insurance companies and otherwise. A trust engendered for over one hundred years should not easily be released.

By joining us at this year's Winter Clinic, ably organized by Dr. Barry Chapnick, you will in a sense be celebrating not only the two distinctive events mentioned, but also recognizing how our profession has served the welfare of the people of Ontario in the past and how it intends to continue to serve it in the future.
Welcome!

**PRE-REGISTERED
DENTISTS – YOUR
BADGE IS YOUR
RECEIPT!**

CHAIRMAN'S WELCOME

A. BARRY CHAPNICK, D.D.S.

Please join us as we celebrate this 50th Anniversary in Toronto. I can assure you that you will come away with increased scientific and business knowledge and memories of the warm reception you received at Winter Clinic '87.

From a humble beginning back in the 1930's, Winter Clinic has grown immensely in both stature and size to the point where we are now the largest one-day dental meeting in North America.

However, the principles on which this meeting was founded – a quality program with fellowship and hospitality, have remained the same.

With this being the 50th Anniversary of the Academy of Dentistry's Winter Clinic, I am pleased and proud to welcome you to share with us this auspicious occasion.

HAVE A GREAT DAY!

WELCOME MESSAGE

LORRAINE BOOMHOUR, E.D.D.H,

PRESIDENT, ONTARIO DENTAL
HYGIENISTS' ASSOCIATION

On behalf of the Ontario Dental Hygienists' Associations' Executive, Board of Directors and Marilynne Fine, ODHA Winter Clinic Chairman, I am proud to extend a warm welcome to all participants in the

50th Annual Toronto Academy of Dentistry Winter Clinic.

This is a special time to be with others who understand the joy and challenges of dentistry. We are confident that this year's Winter Clinic will provide all those attending with the unity and sense of purpose that are important parts of the dental profession.

We trust that the program will spark in you a new enthusiasm for your respective associations, for continuing dental education and for the future of dentistry.

Thank you to the Academy of Dentistry for offering this personal and professional learning experience. I look forward to sharing this day with you.

ODNAA WELCOME

As President of the Ontario Dental Nurses & Assistants Association, I wish to welcome all those attending this year's Winter Clinic.

Congratulations to the Toronto Academy at this their 50th (our 43rd) Winter Clinic. Under the direction of Nancy Block, Winter

Clinic Manager, an excellent educational program has been planned. I hope all members of the dental team have an educational and enjoyable day.

Respectfully submitted,
Bonnie Darling, C.D.A.,
President O.D.N. & A.A.

FLEXITE **

"THE ORIGINALS"
A specialty of DeLuca Labs

Flexite is a fluoropolymer thermal plastic specifically for dentistry. It is chemically inert and possesses remarkable stability.

Flexite clasps blend with abutment teeth making them non conspicuous within speaking distance.

- Stain Resistant
- Non Toxic
- Can be added to and repaired by reinjecting and welding

- Clinically Unbreakable
- Can be made with metal combinations utilizing chrome frames and Flexite saddles or clasps.

ON PHYSIOLOGICAL FITNESS

COVERT BAILEY

Synopsis

The basic intent of this program will be to show the healthful metabolic changes that occur in people who undertake a regular program of exercise and low fat diet. Conversely, as one gets fat and out of condition, deleterious

changes take place in metabolism that increase the risk of heart problems, diabetes, high blood pressure, osteoporosis, and decrease calorie requirement. As calories requirement goes down, vitamin/mineral requirements goes up, and one gets fatter on less food while becoming vitamin deficient.

This lecture will show why fat people are at higher risk to disease and why they must adhere to a proper diet. The second half of the lecture will cover fat content of foods, which dietary tricks are helpful and which are harmful and basic rules for what foods to eat.

Biography

Covert Bailey, famous for making fitness and nutrition concept understandable and motivating is a trusted leader in the health field. Fat – not weight – is the enemy claims Mr. Bailey, and lifelong fat control is attainable with as little as 20 minutes of daily exercise. In addition, Bailey's rules for a perfect diet assure a lean and healthy lifestyle.

Covert Bailey is the author of the best selling *Fit or Fat* and *The Fit or Fat Target Diet*. He presents over 150 courses each year.

Although Covert Bailey holds several advanced degrees, he takes greatest pride in a Masters of Science Degree in nutritional biochemistry from M.I.T. His scientific background also includes research in physiology at Harvard Medical School. The 54 year old Portland, Oregon resident has not spent his entire life in a research laboratory. To the contrary, he has been a ski and tennis instructor, a lumberjack, a geologist, a rock climber and a canoe guide.

LIMITED ATTENDANCE – ALL DAY CLINIC

CURRENT RESTORATIVE TRENDS — Bleaching, Etched Porcelain, and Etched Metal Restorations

RONALD A. FEINMAN, D.M.D.

Synopsis

Bleaching stained and discolored teeth has been accomplished in dental offices throughout the world. It now has been simplified to the extent that it is being treated as another normal service available to the patient by the general practitioner.

This presentation will explain the day-to-day utilization of bleaching techniques, resin bonded retainers, and porcelain laminates. Step-by-step techniques, treatment planning, clinical preparation, laboratory consideration, cementation, post-operative care and recent advances will be discussed and demonstrated.

In addition, success and failures of design and importance related to longevity will be shown. Recent advances, marketing, and product utilization will also be included in this presentation.

Biography

Dr. Feinman is in private practice in Atlanta, Georgia and graduated in 1966 from the University of Alabama School of Dentistry. He spent two years with the U.S. Army Dental Corps in Monterey, California and Viet Nam and has been in private practice ever since.

Dr. Feinman has written numerous articles, lectured extensively, and contributed to textbooks in esthetics and materials. He is currently co-author of a textbook which is published by Quintessence Publishing Co., Inc. entitled "*Bleaching Teeth*".

He is a Special Lecturer in Esthetics at Emory University School of Dentistry in Atlanta and has been actively involved in organized dentistry on local and national levels and is currently President-Elect of Alpha Omega Dental Fraternity.

Dr. Richard Rodney

HAROLD GELB, D.M.D.

Harold Gelb, D.M.D., has conducted continuing dental education courses under the auspices of dental schools and local, state and national dental organizations throughout this country and abroad. Educated at New York University and Tufts University

College of Dental Medicine, Dr. Gelb currently maintains a private practice in New York City. He served as Director of the Temporomandibular Clinic, Department of Otolaryngology New York Eye and Ear Infirmary, from 1958 to 1979 and also was Chief Attending Prosthetic Dentist at French and Polyclinic Hospital Health Center and Medical School. Dr. Gelb is a Clinical Professor in the Department of Prosthodontics at the New Jersey College of Medicine and Dentistry and he has taught in the Fixed Prosthodontic Department at New York University College of Dentistry. Dr. Gelb is a Fellow of the Academy of General Dentistry, The American College of Dentists, and the International College of Dentists. He has published on the subject of TMJ related subjects in *Dental Clinics of North America*, *New York Journal of Dentistry*, *Journal of Prosthetic Dentistry*, and the *Journal of the American Dental Association*. In addition, Dr. Gelb served as editor and contributor for *Clinical Management of Head, Neck and TMJ Pain and Dysfunction*, published by W.B. Saunders Co., 1977. He is also the author of *Killing Pain without Prescription*, published by Harper & Row Publishers, Inc. 1980.

DR. ERIC PAUL SHABER

Dr. Shaber is a graduate of Columbia University School of Dental and Oral Surgery. He did his Oral and Maxillofacial surgery residency training in Long Beach, California. He was the Chief of the Oral and Maxillofacial residency training program

at the Veterans Administration Center in San Francisco where he also supervised the Facial Pain Clinic. He has contributed chapters in best selling textbooks on the subject of Facial Pain and has published numerous

TMJ SYMPOSIUM

articles on the topic. He has lectured extensively throughout the United States and abroad and is a recognized authority in the field. Dr. Shaber is a Diplomate on the American Board of Oral and Maxillofacial Surgery.

DR. PETER W. ROWSELL
M.B., M.R.C.P. (Lond),
F.R.C.P. (C),
Dip. Psych. (McGill)

Dr. Rowsell received: M.A.
(Natural Sciences), University of
Cambridge – 1943; Bachelor of
Medicine and Surgery – 1946;
Member of the Royal College of

Physicians of London – 1951 (Internal Medicine); Diploma
in Psychological Medicine – Royal College of Physicians of
Ireland – 1953; Diploma of Psychiatry – McGill University –
1955; Fellow of Royal College of Physicians of Canada –
Certified as Specialist in Psychiatry – 1955 – Fellowship of
the College – 1973, and Certified Master Practitioner –
Society of Neuro-Linguistic Programming – 1985.

Dr. Rowsell was House Physician in several hospitals in
England and was Senior House Officer at Mandsley
Hospital, Institute of Psychiatry, University of London,
England. He worked for several years in Montreal and
from 1955-1962 was Consultant Psychiatrist, Oakville-
Trafalgar Memorial Hospital. Dr. Rowsell is presently;
Courtesy Staff, Oakville-Trafalgar Memorial Hospital; Mem-
ber of Ontario Lieutenant Governor's Board of Review, and
Member of the Central Board of Review of Ontario.

Dr. Rowsell is a member: Ontario Society for Clinical
Hypnosis; Medico-Legal Society – Toronto; Ontario Cana-
dian Medical and Psychiatric Associations, and was
Chairman; Forensic Section, Ontario Psychiatric Association,
1980-1982.

Dr. Rowsell has had many articles and papers published,
his most recent being "Hypnosis" – Seminar on Forensic
Pathology, The Homicide Investigator, Ministry of the
Solicitor General of Ontario, November 1985, Toronto.

CHAIRMAN: Dr. Stewart Sigesmund

GENERAL ANESTHESIA IN THE PRIVATE DENTAL OFFICE

MARVIN KAY, M.D.

Synopsis

The author describes his experience with a mobile anesthetic service provided to patients in private dental offices. During the past 21 years he has safely administered over 13,000 general anesthetics in the offices of over 250 dentists in Ontario.

Fear was the most common indication for general anesthesia followed by comfort during lengthy treatment, young age, and the inability to co-operate. Requests for restorative dentistry exceed those for dental surgery.

Patients aged 5 to 55 were accepted after examination by their family physician. Prior to the procedure, each patient receives printed instructions, a telephone call, and a detailed questionnaire was completed prior to the anesthetic.

The principal piece of equipment is a portable Haloxair anesthetic unit. The procedures lasted from 45 minutes to 120 minutes.

Post operative complications can occur and these will be discussed. The experience of 21 years demonstrates that general anesthesia can be administered safely in dental offices.

Biography

Dr. Kay is a 1957 graduate of the Faculty of Medicine at the University of Toronto. After participating in a rotating internship at the New Mount Sinai Hospital he attended the anesthesiology residency program at Columbia-Presbyterian Medical Centre in New York City. He then spent six months as the Resident in Anesthesia at the Toronto General Hospital and a further six months as Anesthesia Resident at the Hospital for Sick Children. Dr. Kay has practised anesthesia at St. Michael's Hospital, the Doctor's Hospital and the New Mount Sinai Hospital.

During the past two decades, Dr. Kay has developed a unique travelling anesthesiology practice, administering general anesthetics in private dental offices throughout the province. He also practises hypnotherapy. Dr. Kay studied hypnotherapy at the Canadian Institute of Hypnotism in Montreal and he is a Charter Member of the Ontario Society of Hypnosis.

40 CLINICAL TIPS AND TRICKS TO SIMPLIFY ORTHODONTIC TREATMENT

RANDY LANG, D.D.S., D. ORTHO

Synopsis

This presentation will concentrate on removable orthodontic appliances and the types of problems that they can successfully correct in general practice.

Some of the topics covered will be:

- Picking and choosing your cases for successful treatment
- Tricks in adjusting clasps and finger-springs
- Some novel modifications of removable appliances
- Correcting minor crowding without extractions
- The latest orthodontic appliances taught at those expensive hotel courses (Some don't even work!)
- Uprighting tipped molars in preparation for fixed bridges using a simple bonding technique
- Time saving tricks in repairing broken appliances
- Tips on how to prevent relapse at the end of treatment

Biography

Dr. Lang was an honors graduate from the Faculty of Dentistry, University of Toronto, in 1966 and then the graduate program in Orthodontics in 1969.

In addition to his orthodontic practice in Mississauga and Etobicoke, Dr. Lang is a lecturer in the Orthodontic Department at the University of Toronto. He is a past President of the Ontario Society of Orthodontics and is the Orthodontic Editor of the dental journal "Oral Health". He is an elected member of the Council of the Royal College of Dental Surgeons and is also the Orthodontic Consultant to the Mississauga Hospital. Dr. Lang has presented numerous clinics in both the United States and Canada.

LUNCHEON SPEAKER

JEREMY BROWN

Jeremy Brown is a daily commentator on radio station CKFM in Toronto, and the author of seven books, including a national best seller, *The Canadian Book of Lists*.

Mr. Brown graduated from the University of British Columbia and began a succession of journalistic posts including, inter alia, TV Critic of the Toronto Star, entertainment editor of the late Toronto Telegram, founding editor of Toronto Life Magazine, entertainment editor of the Toronto Star, first employee and manager, Global Television news, and currently, food editor for CKFM and Goodlife Magazine.

In addition to his radio and magazine duties, he is president of a small publishing house, Newcastle Publishing Limited, and has since 1975 published more than 60 titles.

Jeremy Brown hits left, bats right, has a wife and three children, lives in the hamlet of Greenwood, Ontario, and has no hobbies. He proposes to make a career speaking to dental associations, this lunch speech being the 12th such speech in the past five years.

The title of his speech is either: *The Future Lies Ahead* (as any fool knows), or, *The History of Canada Since 1066*.

ENDODONTIC FLARE-UPS – HOW TO MANAGE AND HOW TO PREVENT THEM

BARRY H. KORZEN, D.D.S.

Synopsis

Nothing is more disturbing to the patient and to the practitioner than an unexpected onset of pain and swelling in the midst of “routine” endodontic treatment. This lecture will guide the practitioner through a series of steps to minimize the occur-

ance of flare-ups and maximize the effectiveness of treatment of these situations should they occur.

Biography

Dr. Korzen is an Associate Professor and Head of the Endodontic Department, and Director of Alumni Affairs at the Faculty of Dentistry, University of Toronto.

He is an 1968 graduate of the University of Toronto and received his post-doctoral training in Boston at the Harvard school of Dental Medicine and Forsyth Dental Center from which he graduated.

Besides his teaching responsibilities, Dr. Korzen maintains a private endodontic practice in Toronto.

PLACE: 205D

TIME: 9:00 - 10:00 a.m.

PERIODONTAL MAINTENANCE

MONIQUE FITCH, M.Sc., D.D.S., Cert.
Perio., M.R.C.D.(c)

Synopsis

The aim of periodontal treatment is to establish a healthy periodontium and arrest periodontitis. Surgical procedures provide access to the roots for proper debridement. Furthermore, excision of soft and hard tissues creates improved

conditions for healing and plaque control. Studies show that this approach can arrest periodontal disease.

However, organisms responsible for the recurrence of disease can not be eliminated from the tooth surface for any length of time. After surgical pocket management, patients need professional assistance at regular intervals to help them maintain adequate levels of plaque control. This will prevent the formation of subgingival plaque and thereby minimize inflammation and subsequent attachment loss.

Without maintenance care, periodontal treatment has been shown to eventually fail. The aim of this presentation will be to discuss the rationale and goals of maintenance therapy as well as describing the responsibilities of the dental health team. This includes the evaluation of the patient's periodontal status, periodic supportive care, and the treatment of recurring disease. Factors determining the frequency of recall visits after active treatment will also be discussed.

Biography

Dr. Fitch is a periodontist engaged in a full-time practice in Unionville and Barrie. She is a part-time associate in periodontics at University of Toronto. Dr. Fitch graduated from the Faculty of Dentistry at McGill University in 1979 and from Graduate periodontics at Dalhousie in 1982. Until a year ago, Dr. Fitch was a full-time associate professor at Dalhousie.

PLACE: Room 203B

TIME: 9:00 - 10:00 a.m.

CHAIRMAN: Dr. Ken Hershenfield

PERIODONTICS: AN ESSENTIAL FOR YOUR PRACTICE GROWTH

MURRAY L. ARLIN, D.D.S., F.R.C.D.(c)

Synopsis

Insurance statistics indicate only 3% of dental procedures carried out by general dentists are periodontal in nature. Epidemiological studies, however, have shown that up to 90% of new adult patients have some form of periodontal

disease and that periodontal treatment needs will continue to rise in the next 25 years.

These facts *dramatically* demonstrate the need for periodontal treatment for the benefit of our patients.

This presentation will teach you how to:

- properly document periodontal patients
- incorporate your new established patients into a periodontal program in your own office
- overcome the confusion of when to treat and when to refer
- establish an effective and profitable periodontal maintenance program.

Biography

Dr. Arlin received his D.D.S. at McGill University in 1977 and after a hospital residency in Montreal, completed his periodontal training at the University of Toronto in 1980. He earned his Fellowship in the Royal College of Dentists of Canada in 1983. He has been a regular lecturer and demonstrator at the University of Toronto in the undergraduate and post-graduate Periodontal Departments. Dr. Arlin regularly gives seminars and lectures across Canada and he has authored many articles in leading dental journals. His full-time periodontal practice is in Weston, Ontario.

THE ASYMPTOMATIC IMPACTED THIRD MOLAR — “To be or not to be?” – That is the question PAUL CHAPNICK, D.D.S.

Synopsis

The complications which may result from retained impacted third molars will be reviewed as will the contra-indications to extraction. The rationale for early removal by review of several radiographs, case histories and significant studies from many

leading institutions, will be emphasized.

Biography

Dr. Chapnick is a graduate, D.D.S., University of Toronto, 1962, and was Certified in Oral Surgery at Boston University, Harlem Hospital, New York and Doctors Hospital, Toronto.

He is Associate Staff, Faculty of Dentistry, University of Toronto; Fellow of the Royal College of Dentists (Canada); Diplomate of the American Board of Oral and Maxillofacial Surgeons; Fellow of the American Dental Society of Anaesthesiology and Staff Oral Surgeon, Mount Sinai and Northwestern General Hospitals. Dr. Chapnick is the recipient of the Hinman Award for contributions and achievement in dentistry.

RADIOLOGY: AN ENDODONTIC PERSPECTIVE

**CALVIN D. TORNECK, D.D.S., M.S.,
F.R.C.D.(c)**

Synopsis

Radiographs are an integral and important part of endodontic treatment. They are used in pretreatment diagnosis, root canal preparation and filling, and in an evaluation of post-operative success. During this one hour presentation some of

difficulties experienced in properly interpreting the images recorded on the radiograph in regards to their endodontic application will be described and discussed.

Biography

D.D.S. (Toronto) 1958; M.S. (Michigan) 1958; Diplomate American Board of Endodontists (1967); F.R.C.D. (C) 1968; F.I.C.D. 1979. Associate Professor of Dentistry, Faculty of Dentistry, University of Toronto; Consultant in Endodontics at: Mt. Sinai Hospital, Toronto; U.S. Army Endodontics Residency Program, Walter Reed Hospital, Washington, D.C.; U.S. Navy Endodontic Residency Program, Bethesda, Maryland.

Past President, American Board of Endodontists; Canadian Academy of Endodontics, Pulp Section, I.A.D.R.

Dr. Torneck has lectured extensively nationally and internationally and has been the author and co-author of 33 articles (20 original scientific).

He is the recipient of the Ralph Sommer Award, A.A.E., for applied endodontic research. Dr. Torneck has been a contributor to 12 dental textbooks.

A REVIEW

Epidemiology, Natural History, Control and Prevention of Human Immunodeficiency Virus (HIV) Infections

RANDALL A. COATES,
M.D., M.H.Sc., F.R.C.P.(c), F.A.C.E.

Synopsis

This presentation will review current information on the epidemiology and natural history of HIV infections. Particular attention will be given to the most recent information on the occupational risk of infection in the health care sector, including the dental profession. Methods of control and prevention of HIV infections in both affected individuals and those at risk of exposure will be reviewed. Ample opportunity for questions will be provided.

Biography

Dr. Coates graduated M.D. from Queen's University in 1974. He has many current appointments, including: Associate Physician, Division of Infectious Diseases, Department of Medicine, Toronto General Hospital; Assistant Professor, Department of Preventive Medicine and Biostatistics, University of Toronto; Active Staff, Division of Gastroenterology, Department of Medicine Sunnybrook Medical Centre; Member, Health Care Research Grants Review Committee, Ontario Ministry of Health, and Member, National Health Research Development Program Grant Review Committee on AIDS. Dr. Coates has been active in teaching, the most recent being Instructor, CHL 3102F, Epidemiology of Communicable Diseases 11, Graduate Department of Community Health, University of Toronto.

Dr. Coates has published many articles and abstracts, and has lectured extensively on Epidemiology, Hepatitis B and AIDS.

“A STRESS MANAGEMENT WORKSHOP”

MR. LESLIE ROSE

“OPTIMAL STRESS MANAGEMENT FOR YOU AND YOUR PATIENTS: A HIGH LEVEL OF WELLNESS”

The practice of Dentistry is known as being highly stressful. This two-part workshop will provide a better understanding of how to identify stress, mobilize

resources, and apply proven techniques to optimize your health and well-being.

Those who use these STRESS CONTROL TECHNIQUES, including top performing athletes, find they have more energy, more satisfaction and few distracting counter-productive behaviours within a month's time. Symptoms of stress such as headaches, irritability, insomnia, backaches, anxiety and exhaustion begin to reduce very quickly. Workshop participants will be familiarized with techniques which they can use themselves in times of stress.

The use of stress management techniques complements an appropriate diet and fitness program.

Mr. Leslie Rose has a Master's Degree in Counselling and Human Relations and seven years experience teaching stress management and other human resources skills. He is currently Coordinator of Training for the Canadian Institute of Stress.

PLACE: 203C

SELF ADMINISTERED, COMPUTER ASSISTED, LIFESTYLE INVENTORY

Organized by the O.D.A. Dentists At Risk Committee

In room 203D, computers, monitors and printers, enclosed in PERSONAL PRIVACY CUBICLES, are available to all registrants. This was an extremely popular portion of this year's O.D.A. Convention.

Using the 15 minute, self administered program, the participants will produce their own lifestyle printout to take with them. The participant is the only one who will ever see the results or printout. Areas covered are those common to Dentists and Auxiliary Personnel alike. A technician will be available, if requested, to assist those not familiar with the Honeywell Computer.

The number of computers available is limited. Try it... it's fun!

Come to room 203D in the morning after you pick up your registration to book a time to take the Lifestyle Inventory.

THE WINNING WOMAN

SUZANNE ANDERSON, M.A.

Synopsis

To leave your old identity at the door!

A climate for unprecedented change.

A new definition of winning – beyond the battle.

The missing half of the success formula.

How to get at the heart of self-destructive behaviour.

How to break through the number one fear in communication.

Feminine leadership skills – woman being Woman.

Biography

Suzanne is the Regional Coordinator of Renaissance Business Associates, an international consulting firm. An actress, athlete, linguist, business woman & adventurer, she lectures and conducts seminars across North America on personal and professional effectiveness. Suzanne excels in creating a safe atmosphere in which women may explore their creative potential.

HONOURARY LIFE MEMBERSHIP

ARTHUR W.S. WOOD, D.D.S., F.R.C.D.(c)

The Academy of Dentistry, Toronto is honoured at its Annual Winter Clinic Meeting, 1987, to present for Honourary Life Membership in the Academy, Dr. Arthur Wood.

Dr. Wood graduated from the Faculty of Dentistry, University of Toronto in 1943. He spent

nearly 33 years developing, producing and testing protective devices for young athletes involved in contact sports such as hockey, lacrosse and football. His achievements and expertise in this field are known and respected not only in Canada and the United States but in other countries of the world. Dr. Wood's efforts in designing "mouthguards" earned him the title "Father of the Mouthguard" in Canada.

Dr. Wood has had many honours including; being named to the Mississauga Hockey Hall of Fame; a Citizen of the Year award from the City of Mississauga in 1981; induction into the Mississauga Sports Hall of Fame for outstanding contribution to the prevention of head and facial injuries in sports – 1985; The Canadian Dental Association Distinguished Service Award for contribution to the prevention of traumatic facial injuries in sports – 1985; Volunteer Service award from the Province of Ontario – 1987, and was honoured by the Mississauga City Council for contribution to the community.

Dr. Wood has been active in the community as: Founding member of Mississauga Safety Council – Chairman for 10 years and still an active member after 32 years; Chairman of Drive Education for High Schools – 1962-1966; 21 years active in hockey in Mississauga and on the executive from 1954-1960; Chairman of Recreation, Cooksville, 1960-1963; Co-inventor of first Extra Oral Mouth Guard for hockey; Director for 8 years of the Credit Valley School for Handicapped Children; C.D.A. representative on Canadian Standards for the evaluation of athletic equipment for 17 years.

Dr. Wood and his wife Mary have been residents of Mississauga for 36 years and they have three children.

Change brings life

Chinese proverb

Over the years Shaw Laboratories has earned an unequalled reputation for quality and service. And as times have changed, we've changed—to continue bringing you the state-of-the-art products you demand and your patients need.

Now, to more accurately reflect the multi-faceted organization we've become, the Shaw network of laboratories has adopted a new corporate name—Shaw Group—and a new image.

But rest assured—because while many things have changed at the Shaw Group,

some things will never change. Like our high standard of ethics, our integrity... and our total commitment to the dental profession.

These are our promises to you and no matter how you "identify" us, you can always count on the best from Shaw.

Shaw Group

FIRST STATED MEETING

FEBRUARY 5, 1988

INN ON THE PARK

DYNAMIC PRACTICE MANAGEMENT LINDA L. MILES

The Academy is pleased that Linda Miles will be returning to Toronto to present another of her practice management courses. Linda was so well-received at the Winter Clinic in

1986 that she will present a different course for the 1988 First Stated Meeting.

Topics to be discussed are:

- Set the Stage for Case Acceptance
- Dental Insurance
- Inventory Control Systems
- The 3 R's of Motivation/Incentives
- How to Attract and Keep New Patients
 - Marketing Tips
- Attract and Hire a Motivated Staff
- Dress for Success - Doctors and Staff

THIS COURSE IS SPECIFICALLY DESIGNED TO BE OF
INTEREST TO THE DENTISTS, ASSISTANTS,
HYGIENISTS AND OTHER DENTAL STAFF.

Use the enclosed registration form to reserve now or
look for the EARLY BIRD REGISTRATION DESK at the
Winter Clinic.

**NO SMOKING IN
MEETING ROOMS OR IN
DINING ROOM**

FLUORIDATION TWENTY-FIFTH ANNIVERSARY

Twenty-five years ago on December 3, 1962 the citizens of Metro Toronto voted to have fluoride added to the city water supply.

The Academy of Dentistry, on Thursday, March 29, 1962 had a special executive meeting to establish a plan of action regarding the fluoridation plebiscite to be held in December. The consensus was to have an increasingly intensive campaign in the fall working up to the December plebiscite.

A sizeable list of Academy members was formed to act as speakers to service clubs, school associations and any other organization requesting information. The speakers were to be supplied with pertinent literature, various pamphlets, slides and an outline of a standard speech as all talks would be uniform in material and information, and where possible show a film "Science Fights Tooth Decay", two copies which were purchased from Harvest Films of New York.

During the CNE in August, the Academy had a fluoridation information booth at the Queen Elizabeth Building, using in part the dental display from the Mediscope Exposition along with slides and a film. A number of Academy members manned this booth which was well received by the public.

Radio interviews and spot comments from Toronto dentists were organized for the Fall.

A letter was sent to all members of the Metro Toronto Council, stating that the Council had a moral obligation to provide accurate information to the public who were to vote on the subject.

Posters were placed in dental offices stating "Your Dentist Favours Fluoridation of Water. Vote Yes on December 3rd." An insert was sent to all Toronto dentists in August to be included with the monthly statements to their patients in September, October and November to be used at their discretion.

It is difficult to ascertain the number of speaking assignments that were filled by the Academy members, but on a budget of \$2700 and the assistance of the ODA, the Health League of Canada, the active support of the Dental Supply Houses and the Metro Toronto Council for Fluoridation, and in spite of a strong anti-fluoridation campaign, the citizens of Toronto gave the Fluoridation Issue an affirmative vote.

Twenty-five years later, the beneficial results of that vote are overwhelmingly evident in the vast improvement in the oral health of our young population.

Dr. John H. Mullett

EMERGENCY SERVICE REPORT

Once again I would like to commend all the members of our emergency team for a job well done. The emergency program has run very well this past year due to their efforts.

The service is meeting the needs of our patients and YOU, our referring dentist.

Due to the large number of offices and dental clinics opened today for extended hours, business is always a concern with our service and I urge you to place our number with your answering service or on your answering machine.

OUR HOURS: Monday - Friday
 4:30 p.m. to 1:00 a.m.
 Saturday, Sunday and Holidays
 9:00 a.m. to 1:00 a.m.
TELEPHONE: 924-8041

During daytime hours, the Academy office (967-5649) will refer patients to dentists who accept new patients and/or will try to see them on short notice.

PAST PRESIDENTS OF THE ACADEMY

The Past Presidents of the Toronto Dental Society are identified as Past Presidents of this Academy. Below is a list of Past Presidents from 1891 to 1987.

1891-92 N. Pearson*	1939-40 Wm. G. Trelford*
1892-93 J.B. Willmott*	1940-41 Edmund T. Guest
1893-94 N. Pearson*	1941-42 Steward A. MacGregor
1894-95 W.H. Wunder*	1942-43 Lloyd M. Grose*
1895-96 G.S. Martin*	1943-44 Charles McLean*
1896-97 H.E. Eaton*	1944-45 Harold Skilling*
1897-98 J.J. McDonagh*	1945-46 Harold Swales*
1898-99 J.E. Wilkinson*	1946-47 H. Colton Bliss*
1899-1900 J.B. Willmott*	1947-48 F. Harold Shepherd*
1900-01 A.E. Webster*	1948-49 Joseph H. Johnson*
1901-02 F.D. Price*	1949-50 Edgar A. White
1902-03 W.E. Willmott*	1950-51 Earl Bancroft*
1903-04 G.S. Martin*	1951-52 Mark G. Boyes
1904-05 C.E. Pearson*	1952-53 J. Gordon Chalmers*
1905-06 W.G.L. Spaulding*	1953-54 Elmer J. Henderson*
1906-07 J.B. Willmott*	1954-55 W. James Smith*
1907-08 R.G. McLaughlin*	1955-56 J. Bevan King*
1908-09 A.J. McDonagh*	1956-57 Harvey Milburn
1909-10 H.E. Eaton*	1957-58 Robert W. Marshall
1910-11 A.E. Webster*	1958-59 William A. Weir
1911-12 A.D.A. Mason*	1959-60 James A. Bigelow
1912-13 C.A. Kennedy*	1960-61 Vernon A. Herron*
1913-14 W.E. Willmott*	1961-62 Arthur E. Histrop*
1914-15 G.W. Grieve*	1962-63 John H. Mullett
1915-16 F.C. Husband*	1963-64 Robert M. Grainger
1916-17 E.F. Arnold*	1964-65 J.E. Carson McGowan
1917-18 W.B.T. Amy*	1965-66 Murray Cornish
1918-19 J.E. Rhind*	1966-67 Morley G. Hardy
1919-20 R.D. Thornton*	1967-68 Gordon M. Marshall
1920-21 W.H. Coon*	1968-69 Bert J. Levin
1921-22 H.A. McKim*	1969-70 George C. Stirling
1922-23 R. Gordon McLean*	1970-71 Wilfred J. McColeman
1923-24 J.A. Bothwell*	1971-72 Miet A. Kamienski
1924-25 Arthur Day*	1972-73 Don M. McKee
1925-26 W.G.L. Spaulding*	1973-74 Bernard N. Crystal
1926-27 H.G. Robb*	1974-75 William S. MacKenzie

MEDIATIONS COMMITTEE REPORT

The Mediations Committee attempts to help resolve problems arising between dentist and patient before requiring legal hearings within our governing body, The R.C.D.S.

Each local society has its own committee consisting of 3 experienced "wet fingered" dentists appointed by their executive council. They meet together to attempt to resolve each complaint in a fair and equitable manner so that both patient and dentist are satisfied.

As a result of the dedication and hard work of the Committee members, this system has been working well for the profession and for the public.

As dentists, we have an obligation to provide the best care we are able to perform at all times. With this, we must keep accurate and complete records for all that we do and say, so that when we are required, a case can be completely reviewed based on solid facts and not hearsay by the patient or dentist.

As Chairman for the last number of years it is my observation that the problems we encounter most often are related to poor communication. Mediations committees across the country are experiencing the same problem. Patients are no longer willing to accept vague statements as to their treatment. They must be fully informed as to the diagnosis, treatment and prognosis of both the treatment and the consequences of postponing treatment. This should be recorded in the patients records. As well, the anticipated cost for treatment should be discussed prior to commencing.

There is nothing so constant as change. Aside from technological advances, the major change to us as health care providers will be increased government involvement. We are no longer a self governing profession and as a result we are being placed in increasing public view. If each one of us would make an effort to act in a totally professional manner our profession will have a better chance of being looked upon favourably rather than with mistrust. Our patients would be more relaxed and so would we.

On behalf of The Academy of Dentistry I wish to thank the members of the Mediations Committee and our office support staff for their help in providing a most important function of our Academy.

Gilbert Chapnick. D.D.S.
Chairman, Mediations Committee

WHAT WILL HAPPEN TO YOUR OFFICE IF YOU ARE SICK OR DISABLED?

ACADEMY OF DENTISTRY MUTUAL AID PLAN

This is a group of dentists who will help a member of the group at a time of distress. Ideally the group will number about twenty, but the number fluctuates as people join and leave. If you are a member of this group, and are unfortunate enough to be unable to practise because of illness or accident, the members of the group will take turns in operating your practice, with your auxiliaries, to a maximum of four days per week, for a number of weeks. This will provide service for your patients in case of emergencies, completion of treatment in progress and maintain the flow of recall patients.

Some of the benefits are, maintaining service availability to your clientelle and employment for your auxiliaries as well as preventing the formation of a huge backlog of patients waiting for your return. If it becomes necessary for a practice to be sold, the plan can maintain the viability of the practice until the sale can be completed. The other members of the plan will come to your office one day at a time, on a rotating shcedule. If the group numbers 20, the remaining 19 dentists would be responsible for about one day each, every five weeks for each disabled dentist. Fees are charged in the usual way at the stricken dentist's office, and the contributing dentist does not receive compensation.

The plan has been available for several years and has worked well to date for the stricken dentist. You might want to ask a friend or two to consider joining, or perhaps start a whole new group. A set of by-laws has been adopted, but they can be changed if the need arises.

Further details and a copy of the by-laws are available at the Academy office – 967-5649 or by calling Berril Garshowitz, 229 Yonge Street, Ste. 213A, Toronto, M5B 1N9, telephone 368-3375.

ASSOCIATE PLACEMENT SERVICE

The Associate Placement Service continues to be an important part of the Academy's function in the Metropolitan Toronto area.

At the present time there are more dentists seeking placements than there are vacancies. We urge all those who require associates to call the Academy office with their requirements.

To facilitate the Placement Service, we would ask that you inform the Academy office once your requirements have been met.

NOW, AVOID HIGH-TEMPERATURE PROBLEMS AND CURE CONTINUOUSLY

Introducing the Caulk® PRISMETICS® LITE

SEE US AT BOOTHS 120, 122, 219, 221

The PRISMETICS LITE stays cool so you can cure as long as you wish. No risk of discomfort from high temperatures. No frustrating time-outs from overheating.

The PRISMETICS LITE is the only continuous performer with no fiber-optic cord and a comfortable pistol grip.

More of the most-wanted features.

Of all the visible curing lights recently evaluated by an independent source¹, The PRISMETICS LITE has more dentist-requested features. Continuous curing is just one.

Two other features are a wide cure and a deep cure. With just two tips — 14mm straight, 8mm angled — the PRISMETICS LITE offers efficient, thorough curing of all your restorative procedures.

SPECIAL INTRODUCTORY OFFER

Purchase a PRISMETICS LITE, receive a Caulk Compules Introductory Package Free.

*Suggested Retail \$702.97 — Save \$223.13. Ask your Caulk Canada Dealer about our Special Trade-in Offer or call us at 416-635-7662.
